

## **Nabriva Therapeutics raises Euro 15 Million (USD 22 Million)**

**Vienna, Austria- October 28, 2009** - Nabriva Therapeutics, a biotechnology company focused on developing a new class of antibiotics for serious infections caused by resistant pathogens, today announced the closing of a EUR 15 Million financing, bringing the total equity funding raised by the company to EUR 57.4 Million (USD 84 Million) since it's foundation in 2006.

Nabriva's existing investors Nomura Phase 4 Ventures, HBM Partners, Wellcome Trust, GLS Ventures, and Novartis Venture Fund participated in this round.

Dr. David Chiswell, CEO of Nabriva Therapeutics said: "These additional funds extend Nabriva's cash reach into 2011 and will fund the development of our systemic pleuromutilin program up to and including the generation of phase II efficacy data in the second half of 2010 ."

Ralf Schmid, CFO of Nabriva added: "We are delighted that our existing investors have shown such a solid commitment to Nabriva and its drug candidates."
