

Sai Life Sciences now listed on Indian Stock Exchanges

As 2024 draws to a close, I am delighted to share that Sai Life Sciences is now a publicly listed company. On December 18, 2024, we had the honour of ringing the bell at the NSE, marking the beginning of a new chapter for our company.

From being a privately-held company with fewer than 100 investors, we have now earned the trust of over 500,000 investors. This milestone reflects 25 years of relentless scientific pursuit, resilience in the face of challenges, and an unwavering commitment to delivering value to all our stakeholders.

As we celebrate this achievement, we want to take a moment to express our sincere gratitude to you. You have been an integral part of shaping who we are today. Your constant support and guidance makes us better each day.

As we step onto the public stage, we do so with a deep sense of responsibility. We are committed to upholding the trust you've placed in us. Our focus remains on driving innovation, maintaining the highest standards of integrity, and contributing to bringing new medicines to life, fast.

As we begin our next chapter, we look forward to strengthening our partnership with you and 'Make it better together.'

Here's wishing you and your loved ones the very best for 2025 and beyond.

Warm regards,

Krishna Kanumuri

CEO & Managing Director
